

RESULTS YOU CAN TRUST

ABOUT US

Noble Medical

Noble Medical is a worldwide provider of testing products uniquely produced to deliver preliminary real-time results within minutes. Our comprehensive collection of solutions allows us to service a diverse customer base including some of the largest healthcare and occupational health facilities in North America.

For over 23 years, we have prided ourselves on providing innovative testing products for urinalysis, oral fluid, alcohol, fertility/pregnancy, cotinine/nicotine, hair, and more. Because we serve a wide array of customer types, we make it a point to stay abreast of current industry best practices, laws and regulations. Customers of Noble Medical receive added value through our close relationship with our sister company, Noble Diagnostics, Inc.

Our commitment to customer service relationships and product excellence sets us apart from other testing supply providers.

Alco-Screen Test

Alco-Screen is a rapid screening test for the detection of alcohol in human saliva.

Alco-Screen 02 is designed for the qualitative detection of alcohol in human saliva relative to a blood alcohol concentration (BAC) is measured greater than or equal to 0.02%. Alco-Screen 02 is approved as a preliminary breath alcohol test in DOT settings.

Alco-Screen (green box) is a semi-qualitative test that estimates BAC based on a color scale comparison, BAC at 0.00%, 0.02%, 0.04%, 0.08% and 0.30%.

CONTROLS

55700	Alco-Screen control solutions, positive and negative controls for quality control testing of Alco-Screen Non-DOT and Alco-Screen 02 DOT products. 2x4ml bottles
--------------	---

PANELS

Alco-Screen Non-DOT (Green Box)	Saliva Alcohol Test Non-DOT – Color Scale Comparison
Alco-Screen 02 DOT	Saliva Alcohol Test – DOT – Positive or Negative line 0.02% alcohol

Multi-Drug Dip Card

Detect multiple drug metabolites with fast visual results using the multi-drug screen test. Innovative design aids in wicking and prevents flooding. FDA 510K approved. CLIA waived, Employment & Insurance, and Forensic configurations available. Up to 16 tests per device. Negative results appear in 60 seconds or less.
